AIA LIFE DIVIDENDS

MAP OUT THE FINANCIAL FUTURE FOR YOUR FAMILY

Secure your child's lifetime protection and enjoy annual dividends to enhance your wealth.

THE ONLY WHOLE LIFE PROTECTION PLAN WITH **ANNUAL DIVIDENDS WHICH YOU CAN WITHDRAW FLEXIBLY**

AIA HEALTHIER, LONGER, BETTER LIVES

Life protection and annual dividends. Get both in one plan.

You and your children deserve the best protection a life plan can offer. AIA Life Dividends is designed to protect your child and provide the liquidity you need. It's also the only whole life protection plan to offer annual dividends that help to ease inflation or finance your child's future needs, such as education.

Plus, the earlier you purchase the plan for your child, the lower your premiums. So, start protecting your child now.

The plan that's made for the future

Flexibility to withdraw annual dividends

Receive annual dividends[1] at the end of the 5th policy year with the flexibility to withdraw in cash. You can also leave it to accumulate interest[1] to build potential growth, or use it to reduce any premiums due. Best part is, whatever you do with your annual dividends will not affect your coverage amount and terminal dividends[1].

A 10-year payment for lifetime protection

Pay for just 10 years with protection up to 100 years old. You also have the option of paying your premium in SGD or USD.

Protection for life

Safeguard your family's future with coverage against death and Total and Permanent Disability[2] (TPD) should anything unforeseen happen.

Enhance your protection with riders

Strengthen your protection for 73 major stage critical illnesses when you add on **Critical Cover Accelerator**[3] rider. For more comprehensive protection, the **Early Critical Cover Accelerator**[3] rider covers you against 150 early, intermediate, and major critical illnesses plus 15 special conditions.

POWERED BY AIA Vitality

AIA Vitality members enjoy up to 15% discount[4] on premiums!

Better Choice, Better Health

Make the choice towards better health than before with AIA Vitality, one of the most comprehensive wellness programmes in Singapore. Through a wide spectrum of tools and benefits that targets different aspects of your health, AIA Vitality supports you to make positive behavioural changes that improve your overall wellness.

Besides physical health, AIA Vitality also takes care of your financial health with exclusive insurance benefits that you can enjoy on selected AIA plans and riders. You can enjoy upfront premium discount on your first year's premiums for the plan. As you get healthier and improve your AIA Vitality status, you will enjoy greater discounts of up to 15%[4]—which means lower costs on your coverage! So, the higher your AIA Vitality status, the more you save!

Get greater peace of mind while securing your child's future

At age 30, Susan purchases AIA Life Dividends for her newborn son, Darren, with a coverage amount of S$200,000 at an annual premium of S$3,600. For added protection against critical illnesses, Susan takes up the Early Critical Cover Accelerator (ECCA) and Early Critical Protector Payor Benefit (II) (ECPPB (II)) riders.

	Coverage amount	Annual premium	Policy term
AIA Life Dividends	S$200,000	S$3,600	100
Early Critical Cover Accelerator (ECCA) rider	S$200,000	S$520	100
Early Critical Protector Payor Benefit (II) (ECPPB (II)) rider		S$243.13	25

Darren's age

0 Susan purchases **AIA Life Dividends with ECCA and ECPPB (II) riders** for Darren at birth.

5 Susan is diagnosed with Carcinoma-in-situ at age 35.

- ECPPB (II) rider came into play and the AIA Life Dividends annual premium of **S$3,600** will be waived for 5 years. Additionally, the ECCA rider annual premium of **S$520** will be waived till Darren reaches age 25, when he is able to fund the premium.

21 Darren is assigned ownership of the policy.
Annual dividends continue to accumulate.

26 Darren pays ECCA annual premium of S$520 till age 65.

30 Darren withdraws **S$5,000** from the accumulated non-guaranteed annual dividends of **S$12,880**.

- The guaranteed coverage for AIA Life Dividends (S$200,000) will not be affected by the partial withdrawal of accumulated annual dividends. Non-guaranteed annual dividends continue to be accumulated based on S$200,000 coverage amount.

60 The accumulated non-guaranteed annual dividends **= S$54,440**.

Note: Figures quoted in the example are rounded off to the nearest dollar and are for illustration purposes only. They are based on the illustrated investment rate of returns (IIRR) of 4.25% p.a. with the accumulated non-guaranteed annual dividends calculated based on non-guaranteed accumulation rate of 2.75%. Based on the IIRR of 3.00% p.a. with the accumulated non-guaranteed annual dividends calculated based on non-guaranteed accumulated rate of 1.50%, the accumulated non-guaranteed annual dividends at age 30 and 60 are S$5,562 and S$16,334 respectively.

Maintain your financial growth even in unforeseen circumstances

Sam, a 35-year-old non-smoker, purchases AIA Life Dividends for himself with a coverage amount of S$150,000 at an annual premium of S$5,700. To better safeguard his future, Sam takes up the Critical Cover Accelerator (CCA) rider.

	Coverage amount	Annual premium	Policy term
AIA Life Dividends	S$150,000	S$5,700	100
Critical Cover Accelerator (CCA)	S$50,000	S$310	100

Sam's age

35 Sam purchases **AIA Life Dividends.**

40 Non-guaranteed annual dividends start to accumulate from end of policy year 5.

45 AIA Life Dividends premiums are fully paid but Sam continues to pay **S$310** annually for CCA rider.

54 AIA Life Dividends plan will breakeven at end of **19th policy year**.

55 Sam is diagnosed with a major critical illness.

- Receives lump sum payout of **S$53,975** including partial terminal dividends (CCA claim partially accelerates AIA Life Dividends coverage amount, hence terminal dividends is partially paid out). CCA is terminated.
- No longer needs to pay premium for CCA rider (Total CCA rider's premium paid to date is **S$6,200**).

- Continues to leave the accumulated non-guaranteed annual dividends of **S$8,923** with AIA (he also has the option to withdraw if needed).
- His AIA Life Dividends coverage amount remains at **S$100,000** after the CCA claim.

56

The non-guaranteed annual dividends accumulated is based on reduced coverage amount of **S$100,000**.

60

His accumulated annual dividends available for withdrawal is **S$12,565**.

- His coverage amount of **S$100,000** will not be affected by any partial withdrawal of accumulated non-guaranteed annual dividends.

65

Sam passed on leaving behind **S$131,196** (reduced basic coverage + accumulated non-guaranteed annual dividends + terminal dividends) for his wife.

Total premiums paid = (S$5,700 X 10) + (S$310 x 20)
= S$57,000 + S$6,200
= S$63,200

Total payout = S$185,171
(Includes total accumulated non-guaranteed annual dividends of **S$16,896**)

Note: Figures quoted in the example are rounded off to the nearest dollar and are for illustration purposes only. They are based on the illustrated investment rate of returns (IIRR) of 4.25% p.a. with the accumulated non-guaranteed annual dividends calculated based on non-guaranteed accumulation rate of 2.75%. The projected payout when the plan is surrendered at age 54 is S$58,526. Based on the IIRR of 3.00% p.a. with the accumulated non-guaranteed annual dividends calculated based on non-guaranteed accumulation rate of 1.5%, the total accumulated non-guaranteed annual dividends are S$4,082, S$5,541 and S$7,193 at age 55, 60 and 65 respectively. The total payout would be S$165,703 at age 65. The policy will breakeven at the end of 23rd policy year which is at age 58 with the projected surrender payout of S$59,207. The above illustration assumes breakeven year is computed based on total basic premiums paid annually, excluding the CCA rider. Annual dividends and terminal dividends (if any) are non-guaranteed. Once credited to the policy, annual dividends (if any) form part of the guaranteed benefits of the policy. Terminal dividends is a one-time, non-guaranteed, discretionary dividend that may be payable upon surrender, claim, or maturity.

Terms & Conditions:

[1] Annual dividends, accumulated interest rate and terminal dividends are non-guaranteed. The actual dividends declared are based on the experience of the participating fund.

[2] The coverage for death and total and permanent disability will cease at age 100 and age 70 respectively.

[3] The coverage for CCA and ECCA riders will cease at age 100. Premiums for CCA and ECCA riders are payable up to age 65 or 10 years, whichever is longer. You may refer to the respective product summary for the list of covered critical illnesses, special conditions, and other details including definitions and applicable exclusions.

[4] The AIA Vitality premium discount is only applicable to premiums based on a standard life. It is not applicable to any extra premiums due to loading. Discount applicable from the second policy year onwards will depend on the AIA Vitality Status attained. The discount is capped at 15%.

Important Notes:

These insurance plans are underwritten by AIA Singapore Private Limited (Reg. No. 201106386R) ("AIA"). All insurance applications are subject to AIA's underwriting and acceptance. This brochure is not a contract of insurance. The precise terms and conditions of these plans, including exclusions whereby the benefits under these plans may not be paid out, are specified in the policy contracts. You are advised to read the policy contracts.

As buying a life insurance policy is a long-term commitment, an early termination of the policy usually involves high costs and the surrender value, if any, that is payable to you may be zero or less than the total premiums paid. You should consider carefully before terminating the policy or switching to a new one as there may be disadvantages in doing so. The new policy may cost more or have fewer benefits at the same cost. Protected up to specified limits by SDIC. This advertisement has not been reviewed by the Monetary Authority of Singapore.

The information is correct as at 16 February 2023.
